Prosthetic | Orthotic | Rehabilitation | Mobility Aids

Innovative Solutions
for Better Mobility
and Independent Living

ABOUT US

Sanvi Rehab Care is a leading manufacturer and supplier of high-quality prosthetic, orthotic, rehabilitation and mobility products. Our mission is to provide innovative, reliable and affordable solutions that improve the quality of life for people with disabilities.

COSMETIC CATEGORY

Cosmetic Stocking BK

Elastic cosmetic stocking for below-knee prostheses to provide natural skin-like appearance and clean finishing.

Code: LHC-06COS

Cosmetic Stocking AK

Elastic cosmetic stocking for above-knee prostheses for a natural and aesthetic look.

Code: LHC-07COS

Press Button

Manually operated control used to activate or operate a function when pressed.

Code: LHC-23RM

Cotton Stockinette

Stretchable cotton sleeve that fits easily over the limb or plaster model, providing a smooth base layer.

Code: LHC-19RM

Pedline Sheet's

Applied over laminated sockets or foam to achieve a uniform, durable and aesthetic surface.

Code: LHC-12RM

KITS

Below Knee Titanium Kit (Premium)

- Product code : LHC-03BK
- Material : SS, Titanium
- Load weight : 80kg-150kg

Includes:
1-Foot Adapter
2-Adapter To Clamp The Tube
3-Four Prong Socket Adapter
4-Carbon Pylon With Adapter

Below Knee Kit (Prime)

- Product code : LHC-02BK
- Material : SS + Al Pylon
- Load weight : 80kg-110kg

Includes:
1-Foot Adapter
2-Adapter To Clamp The Tube
3-Four Prong Socket Adapter
4-Pylon With Adapter

Below Knee Kit (Plus)

- Product code : LHC-02BK
- Material : SS + Al Pylon
- Load weight : 80kg-110kg

Includes:
1-Foot Adapter
2-Adapter To Clamp The Tube
3-Four Prong Socket Adapter
4-Pylon With Adapter (200mm)

Above Knee Kit (Prime) (Four Bar)

- Product code : LHC-02BK
- Material : SS + Al Pylon
- Load weight : 80kg-110kg

Includes:
1-I/S-04K(JOINT)
2-Three Prong Clamp
3-Three Prong Socket Adapter
4-Four Prong Socket Adapter (400mm)
5-Foot Adapter

Above Knee Kit With Polycentric Knee Joint Both Side Pyramid

- Product code : LHC-02BK
- Material : SS + Al Pylon
- Load weight : 80kg-110kg

Includes:
1-I/S-04K(JOINT)
2-Adapter To Clamp The Tube
3-Four Prong Socket Adapter
4-Pylon With Adapter (200mm)

Above Knee Kit With Activated Brake (Four Bar)

- Product code : LHC-08AK
- Material : SS + Al Pylon
- Load weight : 80kg-110kg

Includes:
1-I/S-04K(JOINT)
2-Three Prong Clamp
3-Three Prong Socket Adapter
4-Four Prong Socket Adapter
5-Foot Adapter

RAW MATERIALS

Carbon Fiber Cloth

Lightweight & high strength fabric used for socket fabrication.

Carbon Sleeve

Stretchable carbon sleeve for reinforcement and strength.

Prozot Sheet's

Laminated foam sheet used for socket fabrication & finishing.

PU (Tan)

High quality tan PU material for cosmetic finishing.

TOOLS

Casting Mandrill BK/AK

Precision engineered mandrill for socket fabrication.

Bending Brace Apparatus

For accurate shaping and adjustment of orthotic metal components.

Bending Bar Apparatus

Used for precise bending of metal bars and flat strips.

Rubber Bowl (Set)

Durable rubber bowls for mixing gypsum and other materials.

Surform Blade & Prow Knife

Hand tools for shaping, trimming and finishing.

Anvil & Bench Vice

Essential tools for fabrication, repair and holding.

MOBILITY & SUPPORT (OTHER PRODUCTS)

Manual Wheelchair

Walker

Commode Chair

Crutches

Walking Stick

ADAPTERS

Sach Foot Adapter

Used to connect the prosthetic foot securely with the pylon or lower limb assembly.

- Product Code : LHC-01PC
- Material : SS / TI / CS
- Load Capacity : 80-100 kg

Adapter to Clamp the Tube

Designed to firmly clamp the prosthetic tube, allowing precise height and alignment adjustment.

- Product Code : LHC-02PC
- Material : SS / TI / CS
- Load Capacity : 80-100 kg

Adapter to Clamp the Tube (With 10 Degree Tilt)

Allows angular alignment of the tube for improved gait correction and comfort.

- Product Code : LHC-06PC
- Material : SS / TI
- Load Capacity :

Pyramidal Tube Clamp Adapter

Designed for precise pyramidal alignment and quick adjustments during prosthetic fitting.

- Product Code : LHC-07PC
- Material : SS / TI
- Load Capacity : 80-100 kg

BK Tube (200mm) with Integrated Adapter

A below-knee prosthetic tube with a built-in adapter for quick assembly and reduced component usage.

- Product Code : LHC-04BK-200
- Material : Aluminium / Carbon
- Load Capacity : 80-100 kg

AK Tube (400) with Integrated Adapter

Above-knee tube system with integrated adapter, offering strength and easy fitting.

- Product Code : LHC-05AK-400
- Material : Aluminium / Carbon
- Load Capacity : 80-100 kg

Four Prong Socket Adapter

Provides strong socket attachment with four-prong fixation for improved load distribution and durability.

- Product Code : LHC-03PC
- Material : SS / TI / CS
- Load Capacity : 80-100 kg

Adapter For Socket Flat Type Pyramidal

Compact and durable flat-type socket adapter for secure connection and accurate alignment.

- Product Code : LHC-10PC-2
- Material : SS / TI / CS
- Load Capacity : 80-100 kg

Adapter To Replace the Tube

Allows easy replacement or extension of prosthetic tubes without changing the full assembly.

- Product Code : LHC-02RC
- Material : SS / TI / CS
- Load Capacity : 80-100 kg

Double Mouth Adapter Pyramid & Pyramidal Receive

Used to connect two prosthetic components with pyramidal interfaces on both sides.

- Product Code : LHC-22PC (22 / 45 / 60 / 75)
- Material : SS / TI / CS
- Load Capacity : 80-100 kg

Shifting Adapter

Acts as a support plate to strengthen flat adapter connections.

- Product Code : LHC-21PC
- Material : SS / TI / CS
- Load Capacity : 80kg - 100kg

Adapter For AK (Four Prong) With Pyramidal Inner

Heavy-duty four-prong adapter for above-knee prosthetic applications with pyramidal inner interface.

- Product Code : LHC-23PC-PI
- Material : CS / SS / TI
- Load Capacity : 80-100 kg

Adapter For AK (Three Prong) With Receiver Inner

Offers enhanced alignment flexibility with integrated receiver or pyramidal inner.

- Product Code : LHC-16PC-RI
- Material : CS / SS / TI
- Load Capacity : 80-100 kg

Adapter For AK (Three Prong) With Receiver Inner

Offers enhanced alignment flexibility with integrated receiver or pyramidal inner.

- Product Code : LHC-16PC-RI
- Material : CS / SS / TI
- Load Capacity : 80-100 kg

Adapter For AK (Three Prong) With Receiver Inner

Offers enhanced alignment flexibility with integrated receiver or pyramidal inner.

- Product Code : LHC-16PC-RI
- Material : CS / SS / TI
- Load Capacity : 80-100 kg

Adapter For AK (Three Prong) With Receiver Inner

Offers enhanced alignment flexibility with integrated receiver or pyramidal inner.

- Product Code : LHC-19PC-RI
- Material : CS / SS / TI
- Load Capacity : 80-100 kg

JOINTS

Four Bar Mechanical Knee Joint (Aluminium)

A dependable prosthetic knee joint engineered with a four-bar linkage system for smooth motion, enhanced stability and controlled knee movement.

- Product Code : LHC-08AL
- Load Weight : 80-100kg

Four Bar Pneumatic Knee Joint

Advanced prosthetic knee joint with a four-bar linkage system and pneumatic control for smoother movement.

- Product Code : LHC-09KJ
- Load Weight : 80-100kg

Active Motion Pneumatic Knee Joint

Advanced prosthetic knee joint with active system with smooth, responsive motion and controlled gait.

- Product Code : LHC-06SL
- Load Weight : 80-100kg

Geometric Five Bar Pneumatic Knee Joint

High-performance prosthetic knee joint engineered with a five-bar linkage system for superior stability.

- Product Code : LHC-05SL
- Load Weight : 80-125kg

Single Axis Pneumatic Knee Joint

A durable prosthetic knee joint featuring a single-axis mechanical design with pneumatic swing control.

- Product Code : LHC-02SL
- Load Weight : 80-100kg

LOCKS

Clutch Shuttle Lock

Reliable mechanical locking system for secure suspension in prosthetic limbs.

- Product Code : LHC-01SL
- Material : Composite Plastic
- Load Weight : 80-100kg

Titanium Shuttle Lock System (AK)

Secure and dependable suspension solution for Above Knee prosthetics.

- Product Code : LHC-06SL
- Material : Ti
- Load Weight : 80-100kg

Titanium Shuttle Lock System (BK)

Secure and comfortable suspension solution for Below Knee prosthetics.

- Product Code : LHC-06SL
- Material : Ti
- Load Weight : 80-100kg

Fit Kit Lock

Secure suspension system used in prosthetic limbs to ensure firm socket attachment.

- Product Code : LHC-02SL
- Material : Plastic
- Load Weight : 80-100kg

COSMETIC CATEGORY

Cosmetic Stocking BK

Elastic cosmetic stocking designed for below-knee prostheses to provide a natural skin-like appearance and clean finishing.

- Product Code : LHC-6CDS
- Material : Elastic Cloth

AK/BK Foam Cover Pre Shape

Pre-shaped foam cover for natural limb contour, easy customization, and smooth cosmetic finish.

- Product Code : LHC-07COS-AK/BK
- Material : Cosmetic Foam

AK PU Foam

Polyurethane foam for above-knee prosthetics, flexible, durable, and easy to shape.

- Product Code : LHC-02COS
- Material : PU Foam

BK Foam Cover (160x160x400)mm

Foam cover for below-knee prostheses with natural contour, easy to shape and lightweight.

- Product Code : LHC-06COS
- Material : Foam

AK TES Belt

Support belt designed for above-knee prostheses, providing secure suspension and added stability.

- Product Code : LHC-06COS
- Material : Elastic / Cloth / Skin
